

## FACULTY MEN PLAN TO FORM COMPANY

Military Drill Squad to Be Instructed by Captain Craigie.

### 25. DESIRE TO JOIN Committee of Professors Is Named to Arrange for Training.

At a meeting of faculty members at the Faculty Union Friday night a committee was appointed to confer with Captain Wallace Craigie, commandant of cadets, regarding the formation of a company of University teachers for military drill. On the committee are Prof. Jesse Wrench, Prof. Frank F. Stephens and Prof. Walter J. Shepard.

The plans of the faculty men are to form a company for regular drill under Captain Craigie's personal supervision. About twenty-five men have expressed their desire to join such a company.

### FRESHMEN PUT ON PROBATION

Fourteen, Tried by Senate, Agree to Wear Caps.

Fourteen freshmen, proved guilty of the charge of not wearing the regulation caps, were put on probation by the Student Senate at a special meeting held Friday evening. They agreed to wear their caps in the future. Freshmen who had broken this rule at the opening of school were given the penalty of removing the freshman signs painted on the walks and on Balanced Rock. They expressed themselves as unwilling to let these signs remain as a reflection on their class.

L. R. Fuller, president of the Student Senate, has called a meeting for 2 o'clock this afternoon to consider the cases of the sophomores.

### Springfield Normal Students Meet.

Former students of the Springfield Normal School met in Room A, Y. M. C. A. Building, at 7:15 o'clock Friday night. Tentative plans for social activities were made. The following officers were elected: president, Blanche Schmitt; secretary-treasurer, Mary Woods; sergeant-at-arms, Oscar Renn. Those present were: Susan Galbraith, Joan Maddax, Ella Clingan, Teresa McKenna, Lenora Johnson, Blanche Schmitt, Mary Woods, Edward Nettles, B. E. ## MORE FOOTBALL THIS SEASON THAN EVER

Training Camp Activities Are Reason for Prediction by Walter Camp.

### RULES ARE CHANGED Officials at New York Make First Elimination of Approved Code.

By Associated Press

New York, Sept. 29.—At a meeting of football officials, coaches and players held here tonight for the purpose of interpreting the rules governing the game, Walter Camp of Yale, who presided, said that, from the activity displayed by the men at the various training camps throughout the country, more football would be played here this fall than ever before. All the officials present said that they would willingly give their services at any game which may be arranged at or between army or navy training camps or stations.

By a unanimous vote, it was decided to cut out the approved ruling regarding the ball still being in play after it had crossed the extended sideline. This was the first time that any approved rule was eliminated by vote or otherwise at any meeting other than a regular one of the Rules Committee.

On the motion of Coach Sanford of Rutgers it was decided to recommend to the Rules Committee the necessity of eliminating the possibility of a player being cut down from behind. The Rutgers coach also made an appeal that the Rules Committee at its next session adopt the "multiple kick," which he claimed would be much better than the "teeing up" of the ball for a place kick now allowed by the rules.

### BANKERS WOULD AID FARMERS

Financial Assistance Means Increased Production of Foodstuff.

By Associated Press

ATLANTIC CITY, N. J., Sept. 29.—How the bankers of the United States have co-operated with the farmer to obtain a more profitable and increased production of food and live stock was related to the American Bankers' Association today by Joseph Hirsch of Corpus Christi, Tex., chairman of the agricultural commission of the association.

"This campaign for increased food, feed and live stock production, which we have been advocating for five years, has become a vital factor in the successful conduct of the great enterprise of war upon which this nation is launched," said Chairman

Hirsch. "Agricultural preparedness is just as necessary as military preparation. We are endeavoring to apply efficiency methods to the business of farming—the greatest business of this country. The purpose of the bankers is to increase our agricultural prosperity and at the same time make the banking business more profitable and infinitely safer by lending direction and financial assistance to the sound farming projects advocated by those efficiency experts, the field forces of the United States Department of Agriculture and the state colleges of agriculture.

"During the last twelve months we have redoubled our efforts toward the employment of additional county agents, and no better proof of the wisdom of this policy can be offered than

the fact that our government, in its campaign for increased food production, will endeavor to place a county agent in every agricultural county in the United States.

"We have continued to advocate the development of the live stock industry and hundreds of calf, dairy, baby beef, sheep, swine and poultry clubs have been organized by bankers all over the country. Thousands of purebred cattle, swine and sheep have been purchased by bankers and have been sold to farmers and to children, members of live stock clubs, at actual cost. These movements are playing an important part in the campaign of the government to increase our meat supply. Illinois bankers have organized more than eighty calf clubs and as a result of their interest more than

6,000 head of animals have been brought into that state.

"Wisconsin bankers, in conjunction with the state agricultural college, have distributed a variety of seed which it is believed will increase the state's wheat yield from an average of twenty bushels an acre to thirty-eight and one-half bushels an acre. Michigan bankers hope to save the farmers of the state some \$15,000,000 which is lost because of poor seed.

"The entire South has engaged upon safe-farming campaigns conducted largely under bankers' auspices, which have saved millions of dollars for Southern farmers."
